Experience

Senior Web Developer, Pelago Inc., Feb 2021 – Present

- Part of the team that created MoveForward PH, an e-commerce platform that provides buy now pay later/installment options to members.
- Was in charge of the development of modules/plugins being used by the platform, enhancements to the core modules of Odoo ERP, to tailor the platform to meet specific business requirements.
- Integration of third-party APIs like PayMongo, DragonPay and Semaphore to MoveForward PH
- General system administration of ubuntu based droplets in DigitalOcean.

Web Developer, Social Space Inc., May 2019 – Feb 2021

- I'm part of the small but awesome tech team where I'm mostly involved in frontend development. I was responsible for the design and development of the social space coworking website. Aside from internal websites, I was also responsible with developing client projects such as Versa Radios.
- I was also part of the team working on Tripi.ph with the developers from Pelago Inc., where I was involved with both the frontend and backend of the platform.

Freelance Web Developer/Designer, Thrive Home Health Agency, Inc., March 2019 – May 2019

- I designed and developed Thrive Home Health Agency, Inc.'s company website with Gatsby.JS (a static site generator for ReactJS).

Junior Web Developer, Redkite PH, Feb 2019 – April 2019

- I developed the website for titaaurings.com.ph with WordPress.

- I developed a WordPress plugin using React.JS, a JavaScript library for building user interfaces. This plugin helps keep track of contact form submissions and allows the user to indicate where the lead came from and if the they have contacted them.

Freelance Web Developer/Designer, CM Digital, Nov 2018 – Dec 2018
- I designed and developed an online portfolio for CM Digital with Hugo (a static site generator), managed with Forestry.io – a content management system for static site generators.

Freelance Web Developer/Designer, Sockalicious, May 2017 – July 2017
- Sockalicious is a store that sells novelty socks. I was in charge of creating a custom Shopify theme for their website.

Web Development Intern, Maxweb Inc., April 2017 – June 2017
- I was part of the team that was responsible for Sanitary Care Products Asia's website. I was in charge of creating the website's Contact Page by displaying a map with the different branches they have nationwide.

Education
Lyceum of the Philippines University – Cavite Campus, General Trias, Cavite
AB Multimedia Arts, July 2018

Technical Skills
Here are a glimpse of the technologies that I know.
Tools:

  Static site generators like Gatsby.js and Jekyll
  Node.js, Express.js and Strapi

Python
Odoo ERP
WordPress
Headless CMS/JAMStack
Basic Docker and Containerization (docker-compose)
General knowledge of linux/ubuntu servers.

- **Design/Wireframes:**
  Figma, Adobe Photoshop, Adobe Illustrator, Adobe Experience Design

Projects

MoveForward PH, 2021

MoveForward provides members with buy now, pay later easy installment payments for online shopping . We understand the need for Filipinos to have flexible payment solutions that would help them avail of what they need right now and pay through installments.
https://moveforward.ph

BDO Barter Planner, 2021

BDO Barter Buddy is a web application that helps adventurers barter from Black Desert Online - an mmorpg. It also has a marketplace tracker that shows the purchases of premium items in the game, showing what's the top selling premium items by hour, day, week or month.
https://bdobarterplanner.com

SINAG PH, 2021

A full stack web application made with Strapi & Next.js, it provides managers the ability to track the performance of their scholars from the NFT game Axie Infinity. It shows their scholar's daily SLP gain, axies and also sends an end-of-day report to the manager of their top earning scholars.

Tripi.ph, 2020

Working closely with Pelago Inc., we created an eCommerce platform that aims to sell and deliver products/groceries to Filipinos during the COVID-19

pandemic. I was responsible for the creation of customer geolocation module, website front-end modifications, the extension of core Odoo modules, and general server management.
https://tripi.ph

Versa Two-Way Radios, 2020
Versa Two-Way Radios is a radio brand recognized by radio dealers, system integrators, and security dealers due to it's economical yet superior performance, reliability and service.
https://versaradios.com

Social Space Coworking, 2019
Social Space Coworking offers collaborative co-working spaces designed for ideas to grow. Strategically located at the intersection of 5 major cities in the south, it serves an ideal gateway for start-ups and SMEs targeting the thriving South Luzon and Calabarzon Region in the Philippines.
https://socialspacecoworking.com

Thrive Home Health Agency, Inc., March 2019
Thrive Home Health Agency, Inc. is a full-service home health agency that is dedicated to serve and offer the best quality and compassionate home health care.
https://thrivehha.com

CM Digital, December 2018
I designed and developed the website for CM Digital, an events, photography, videography studio.
https://cmdigital.studio

Jik, October 2018
Jik (Home) is a personal website for experimenting with GSAP, a javascript animation engine.
storyofus.netlify.com

Student Access Module, April 2018

Student Access Module is my design research output (college requirement). I modernized the design of my universities' online student portal.

Beyond Kaleidoscope, March 2018

Beyond Kaleidoscope is a website for our art exhibit (college requirement). I designed and developed the website to market our art exhibit and to share information (location, artists, speakers) about the said event.
https://beyondkaleidoscope.com

Sockalicious, May 2017

Sockalicious is an online store that sells novelty socks powered with Shopify.
